KOTAPROLU PAVAN KUMAR

+91 9493972027 | pavan.kotaprolu@gmail.com | https://www.linkedin.com/in/kotaprolupavankumar/ | https://github.com/Pavan-pa178

PROFESSIONAL SUMMARY

Computer Science and Engineering final-year student with hands-on experience in full-stack development, AI engineering, and machine learning through internships at Infosys Springboard and IBM SkillsBuild, as well as competitive hackathons. Experienced in building and deploying full-stack applications, agentic AI systems, and machine learning pipelines. Proficient in C, Java, SQL, and JavaScript, with foundational knowledge of React.js, Node.js, and Computer Vision. Seeking an entry-level Software Engineering or AI/ML role to apply strong problem-solving skills, technical expertise, and a fast-learning mindset to building impactful real-world products.

TECHNICAL SKILLS

Programming Languages: C, Python, Java, JavaScript, SQL
Full-Stack Development: HTML5/CSS3, React.js, Node.js, Django, REST APIs, MySQL
AI / Machine Learning: Pandas, NumPy, Matplotlib, OpenCV, TensorFlow, Generative AI
Tools & Platforms: Git/GitHub, Linux, Vercel, Streamlit, Docker.

WORK EXPERIENCE

Software Development Intern **Jul 2026 – Present**
Infosys Springboard — Virtual Internship (8 Weeks)

- Contributing to FreightQuote AI, an agentic maritime freight-quotation platform, building React frontend features and Django REST API backend services across the shipment and quotation lifecycle.
- Working with REST API design to support route intelligence and quotation workflows within a multi-service (Django + FastAPI) architecture.

Full Stack Web Development Intern **Aug 2025 – Sep 2025**
Edunet Foundation – IBM SkillsBuild — Virtual Internship (6 Weeks)

- Completed intensive training in web development and cloud fundamentals through IBM SkillsBuild.
- Built a Food Ordering Website with HTML, CSS, and JavaScript, featuring responsive UI components, menu browsing, and user-friendly navigation.

PROJECTS

1)FreightQuote AI — Agentic Freight Brokerage Platform
Tech Stack: React, Django REST Framework, FastAPI, PostgreSQL
GitHub: https://github.com/Pavan-pa178/Intelligent_Frieght_Quotation_Generator_Project.git
Live: https://intelligent-frieght-quotation-gener.vercel.app/

- Building full-stack features for an agentic freight-quotation platform — React frontend interfaces and Django REST API services spanning the shipment and quotation lifecycle, integrated with a FastAPI agent service for route intelligence.

2)Intelligent Candidate Ranking Engine — Redrob x India.Runs Hackathon
Tech Stack: Python 3 (Standard Libraries) |
GitHub: https://github.com/Pavan-pa178/India_Runs_hackthon-Unemployed_Asian-.git
Built a rule-based engine that scores 100,000 profiles against a job description and returns a ranked top-100 shortlist with written justification, using multi-signal scoring (title fit, skill relevance, experience, career history) with sub-65-second CPU runtime and no external dependencies.

3)FoodieHub — Full-Stack Food Ordering Web App
Tech Stack: HTML5, CSS3, JavaScript (ES6+), IndexedDB | GitHub: https://github.com/Pavan-pa178/FoodieHub.git |
Live: foodie-hub-pavan-pa178s-projects.vercel.app

- Built a fully interactive UI with dynamic search/veg-nonveg filtering, a live countdown-based delivery tracker, and state-synced cart controls; used IndexedDB as a persistent client-side data layer for accounts and order history.

EDUCATION

Andhra University **2023 – 2027**
Bachelor of Technology in Computer Science & Engineering | Expected Graduation: 2027 | CGPA: 8.44 / 10
Relevant Coursework: Data Structures, Algorithms, Databases (DBMS/SQL), Operating Systems, Machine Learning, Artificial Intelligence, Cloud Computing, OOPs, Computer Networks.

CERTIFICATIONS

- Python Essentials 1 & 2 — Cisco
- Machine Learning using Python — Udemy
- Full-Stack AI Engineer 2026: ML, Deep Learning, Generative AI — Udemy
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional — Oracle
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Oracle
- Gen AI Exchange Program — Google Cloud
